

## Amike

Item number 22207, KMAT 61000221

### Product description

Nordic design impresses with its beautiful, minimalist and functional style. Amike is a high-quality decorative fabric that integrates wonderfully into this design world. It owes its elegant, understated look to the soft two-tone effect, which is achieved by using different colored yarns made of 100% Trevira CS in the warp and weft. Amike has high light fastness, good washability and is available in a 300 cm fabric width, which makes it easier to work with and enhances the view at the window.

A balanced color palette consisting of 37 colors combines powdery-soft Scandinavian tones with darker colorways. Refreshingly stronger but not overpowering colors radiate optimism and harmony and give the selection a positive feeling.

Amike is suitable as a curtain for hotel interiors, the care sector, hospitals and the education and administration sector.
