### Product description

Daisy is a plain store with a batiste look. Its surface is matt and natural in line with the current design trend. The item is room-high and can even be washed at 72°C, which makes it ideal for use in the health & care sector. The use of zinc tape instead of lead tape is particularly noteworthy. Zinc tape as a weighting tape has the same properties, but is much more environmentally friendly. This modern blind is also available in a wide range of colors under the name Daisy Colour.
