

Duro

Item number 32379, KMAT 61000287

Product description

Duro translated from Italian means firm, tough, unyielding, which is perfectly suited to the durability of the article. With its 50,000 abrasion cycles, it can easily withstand the demands of the contract sector. Duro is particularly modern thanks to its sophisticated multi-colored design, which gives it a three-dimensional appearance. The wide range of colors includes 20 colors. The tonal combinations blend in with the interior design, while the shades with strong accents in the yarn combination are more individual.
