Product description

DELIUS upholstery fabrics with DELIGARD technology are particularly resistant to moisture and dirt. The innovative system gives bacteria, dirt and moisture no chance. The technology prevents the growth of germs and therefore offers lasting cleanliness even under heavy use. They are the solution for long-lasting stain-free upholstery. The surface is covered with a special coating that protects the fabric from the penetration of dirt. The protective layer on the reverse prevents moisture and wetness from penetrating. Elvin DELIGARD offers the look and feel of a felt fabric. The subtle melange adapts perfectly to different color concepts. Its homely appearance suits both modern hotel interiors and cozy nursing homes. Restaurants also benefit noticeably from the ease of care and the resulting durability of this product.
