

Goa DELIMAR

Item number 43284, KMAT 61000413

Product description

DELIMAR fabrics have been specially developed for outdoor use. This upholstery fabric is made from the innovative Polyolefinic FR fiber, which permanently combines many positive properties. Flame retardancy, high light fastness, chlorine and seawater resistance and weather resistance are the hallmarks of this special fiber. The designs are machine-washable at 40°C and quick-drying, so that mold and bacteria cannot form in the first place. DELIMAR fabrics are free of harmful substances, antistatic and water-repellent. The modern upholstery fabric Goa forms a fine, linear structure consisting of 2-3 colors. Light shades mixed with white are combined with more intense colors. This results in 16 colors that include intense, multicolored colorways as well as light and soft tones.
