

Jackson DELIBLACK

Item number 35969, KMAT 61000139

Product description

Blackouts have a blackout level of 100%. Thanks to a soft acrylic coating on the back, light rays cannot penetrate the material. The coating is particularly soft, which is why the fabric retains its flowing drape. All items in the Blackout range also have special stain protection and are naturally flame-retardant. Jackson is a room-high blackout with melange yarns in warp and weft. The blackout fabric has a soft drape. The color palette of Jackson is determined by ten stylish natural and grey tones.
