

Maris DELICARE

Item number 22896, KMAT 61000047

Product description

DELICARE was specially developed for the care sector and stands for antimicrobial and air-purifying curtain fabrics. These are available on request from a minimum quantity of 100 m with a DELICARE finish, which is retained even after multiple washes.

This beautiful inbetween impresses with its modern changeant effect, which is created by the two-tone warp and weft. The colorful woven fabric has also been chintzed to create a particularly elegant shimmer. Of course, Maris is washable at 60°C, easy to care for and particularly hard-wearing. The beautiful color range with its 28 shades includes great, modern powder tones reminiscent of marshmallows. Powerful coral and turquoise tones are also included in the color selection. Soft, flattering natural tones combine the different color worlds.
