

Meran DIMOUT

Item number 35528, KMAT 61000127

Product description

Dimout curtains are blackout fabrics that reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components create a very dense, softly flowing fabric that allows hardly any light to shine through and has excellent acoustic properties.

The classic Meran block stripe is reinterpreted with finely contrasting rally stripes. Seven clear colors are complemented by five shades of grey and natural tones, which have a particularly elegant appearance. Meran is part of a commercial print series that is used in the health and care sector as well as in hotels.
