

Miles DIMOUT

Item number 31208, KMAT 61000280

Product description

Dimout curtains are blackout fabrics that reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components create a very dense, softly flowing fabric that hardly lets any light through and has excellent acoustic properties. Miles is a room-high dimout with a chenille look. The two-tone melange creates a lively surface that radiates comfort. The color palette perfectly matches the colors of the boho style. Dimouts darken bedrooms and hotel rooms and enable a peaceful night's sleep. In a pleasant way, colors and design create a feel-good atmosphere. In meeting rooms or classrooms, their function can create perfect conditions for screen presentations. But dimouts are also excellent curtains in retirement homes, hospitals or daycare center bedrooms. Dimouts can be used wherever there is a lack of classic external shading.
