Product description

Mistral is a flame-retardant outdoor curtain made from high-quality Trevira CS brand yarn. Thanks to the spun-dyed yarn, it has above-average light fastness and is highly resistant to chlorine and seawater. Mistral is therefore able to withstand a wide range of weather conditions. Whether on the balcony or terrace, by the pool or on the beach, as a curtain for a beach bed or sun lounger - Mistral provides shade and protection from prying eyes. Mistral is also ideal as an indoor curtain for properties with large windows and strong sunlight.
