

## Scott DELICARE

Item number 22910, KMAT 61000048

### Product description

Dimout curtains are blackout fabrics that are able to reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components create a very dense, softly flowing fabric that hardly lets any light through and has excellent acoustic properties.

Scott DELICARE not only has a blackout function, but also antibacterial and air-purifying properties, which were specially developed for the Health & Care segment. Scott is characterized by its matt surface with a linen texture. The well-balanced melanges come into their own in natural and gray shades. Clear accent colors complete the color palette.
