

Sisto DIMOUT

Item number 29443, KMAT 61000260

Product description

Dimout curtains are blackout fabrics that are able to reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color.

Sisto is a dimout made of 100% polyester FR yarn, but looks like a fine linen fabric with a subtle sheen. The restrained two-tone color and the warp and weft threads of different thicknesses give this blackout fabric an interesting effect. The item is available in 25 colors and in 150 cm fabric widths.
