### Product description

The Smart curtain is part of the Care.Collection. With great attention to detail and special attention to design and function, we have put together this collection for the care sector, based on the idea of Healing Architecture and inspired by the idea of Biophilic Design. Smart Leno DELICARE is a graphic design consisting of circles and semicircles that fade towards the top. DELICARE was specially developed for the care sector and stands for antimicrobial and air-purifying curtain fabrics. These are available on request from a minimum quantity of 100 m with a DELICARE finish, which is retained even after multiple washes .
