

Suri DIMOUT

Item number 34876, KMAT 61000113

Product description

Dimout curtains are blackout fabrics that are able to reduce the usual 40% light transmission to just 1%. The degree of darkening is 99%, depending on the color. Dimout fabrics are a double satin with a black weft. These two components ensure a very dense, softly flowing fabric that hardly lets any light through and has excellent acoustic properties.

In this print series, patterned designs are printed on our classic Dimout blackout fabric. The designs range from floral motifs to universal stripes. This beautiful print motif Suri shows branches of a silver leaf with abstractly resolved shades on a neutral background.

Dimouts darken bedrooms in care facilities and hotel rooms and enable a peaceful night's sleep thanks to their blackout function.
